Instructions on File

Approved For Release 2001/08/27 : CIA-RDP56-00403A000100020049-4
Security InformationBASIC TRAINING AGREEMENTBETWEEN CENTRAL INTELLIGENCE AGENCY AND DEPARTMENT OF THE NAVY1. PURPOSE

To instill in selected CIA career employees basic service disciplines, and to give them active duty military training appropriate to their experience and prospective intelligence careers.

2. PLAN(1) Trainees

The trainees will be male college graduates recruited by CIA from sources other than:

- (a) The Service Academies
- (b) The active military establishment
- (c) ROTC graduates

In effect, then, prospective trainees will be non-ROTC college graduates who would normally be draft eligible and who are interested in a CIA intelligence career. They will be employed by CIA prior to the Service training contemplated by this plan.

(2) Numbers

The Navy will accept for this training not more than fifty-five persons per calendar year. Their entry into the Navy will be staggered to permit the processing of readily manageable groups.

(3) Acceptance Standards

Persons accepted by the Navy under this training agreement must meet the standards regularly required by the Navy for acceptance in its Officer Candidate School.

(4) Duration of Plan

Indefinite, but may be revised at any time as desired by either Navy or CIA.

(5) Method of Training

A. Persons accepted under this training agreement will be enlisted in the Navy and sent to Officers Candidate School.

B. Upon successful completion of OCS, the trainee will be commissioned Ensign, U. S. Naval Reserve and will serve in an active-duty status the minimum legally required period. His duty assignments during this period will vary with the individual and will follow that assignment and rotation desired by CIA insofar as it is practicable for Navy to do so. Types of duty contemplated by CIA includes sea duty, and assignment to CIA as part of its regular active-duty Navy quota.

C. If trainee fails to complete OCS successfully, CIA normally will have no further interest in the man who must then discharge his Service obligation as required by the Navy.

D. Upon completion by the trainee of his legally obligated active duty service, he will be released from active duty and, subject to the then existing authority, given the opportunity to resign his reserve commission, provided that CIA certifies that he has agreed to resume employment as a civilian in that Agency. If his employment with the Agency is terminated prior to expiration of the period for which he would normally have been required to continue in reserve status, CIA will notify the Navy which may then in its discretion tender the trainee a reserve commission for the unexpired portion of the obligated reserve duty period.

(6) Charge Against Quota

Persons accepted for training under this agreement will be charged, commencing with the day of enlistment, to the regular quota of active duty commissioned personnel assigned by Navy to CIA.

(7) CIA Implementing Officers

The Director of Training, CIA and his Assistant Director are authorized to act for CIA in this training program.

(8) Navy Implementing Officers

Head of the Field Administration Branch, Training Division, Bureau of Naval Personnel.
